COMMIT REPORT

Dive into the commit's metadata including author, timestamp, description, and associated scan results.

What does this report contain?

This report provides a high-level summary of the selected commit, including repository details, commit metadata, total security findings, and a comparison of issues introduced or resolved since the previous commit. It serves as a quick overview of the commit's impact on code quality and security posture.

Commit Metadata

Commit Description

fix: add handlebars dependency to package json

Commit ID c25829aa

Committed by tharun-divami

Committed 13 hours ago

Scanned by Agent 6.17.0

Scan Duration --

Report Fetched on 12:13 AM [IST]
16-06-2026

Total Findings

- SCA 24
- Secrets 1
- SAST 84

Total 109 issues (SCA, Secrets, SAST) were found during this PR scan.

Issue Status Since Last Commit

0 resolved issues

You have resolved 0 unique issues in this commit compared to your previous commit

106 new issues

You have created 106 new unique issues in this commit compared to your previous commit

FINDINGS OVERVIEW.

Visual summary of severity-based issues from SCA, Secrets, and SAST scans, along with SBOM insights highlighting vulnerabilities in third-party packages

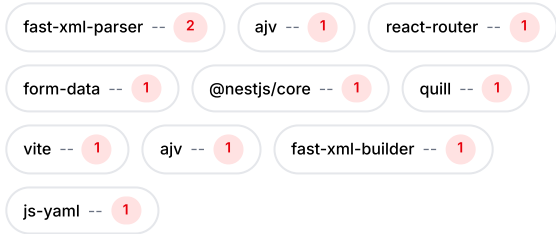

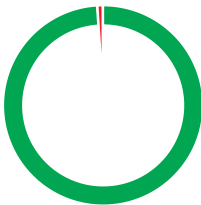

SBOM

Total packages 3409

Vulnerable packages 23

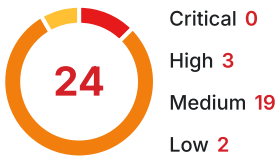

1% of your packages contains vulnerabilities

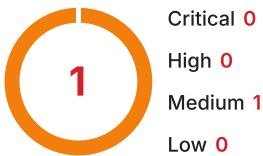

Note You can view all the Packages in your Dashboard

SCA

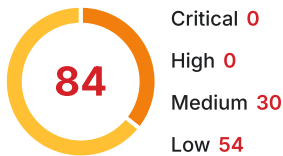

Total 24 issues were found during this PR scan.

Secrets

Total 1 issue was found during this PR scan.

SAST

Total 84 issues were found during this PR scan.

FINDINGS LIST.

View list of severity-based issues from SCA, Secrets, and SAST scans, along with SBOM insights highlighting vulnerabilities in third-party packages
